Hey Bret and Steve,

Thanks for offering to go out. I'd like you guys to plan on heading to Farmington, NM on Wednesday of this week. We will be setting up an incident command post in Farmington over the next 3 days. Right now the plan is to staff the ICP alongside Region 6 to share the burden. If Navajo interests dictate a separate ICP we'll have to spilt off but we'll see.

Randy will be in Farmington when you get there and your role will depend upon the whole IMT assuming we're with 6. Rob will stay in Durango and be imbedded in the area command with Region 8 for the time being. Rob's first draft of our IAP is being drafted today.

Thanks again! We will have a spreadsheet for all of us later for this and the Saipan deployments.

Hey Guys

We are rapidly approaching turning points at Saipan and Durango. To remind, Rob is in Durango and Randy will join him Monday in Farmington. It's likely we'll need some form of an IMT there, Farmington for Navajo impacted areas, next week and we need to start thinking about staffing that. I'd like another OSC to go Monday and a 4th to go Tuesday or Wednesday.

On Saipan, Chris W and Marty are working the Mobil oil spill and have begun to participate in ESF 10 activities. We will staff the JFO in Saipan (probably Lance) and Michelle still has planned field work there 8/17. While Michelle can assist w ESF 10 we need to get someone to head out earlier to transition w Chris and Marty.

I'd like to keep 6 OSCs for a meeting on 8/11 but by then we'll need at least 2 for Farmington and one more en route to Saipan arrive well before 8/17. We will work w ERT, PST and Region 10 but need to staff these key positions ASAP.

Suddenly we've got some tough calls and real urgencies. Let me know what you can do to travel Monday or Tuesday.

Thanks!
